

USING INTERNET EXPLORER

1. Go to **Tool** and click **Internet Options**

The screenshot shows the Microsoft Internet Explorer browser window. The title bar reads "International Islamic University Malaysia - Microsoft Internet Explorer". The menu bar includes "File", "Edit", "View", "Favorites", "Tools", and "Help". The "Tools" menu is open, showing options: "Mail and News", "Pop-up Blocker", "Manage Add-ons...", "Synchronize...", "Windows Update", "Windows Messenger", and "Internet Options...". The address bar shows "http://www.iium.edu". The page content includes the university's logo, name in Arabic and English, and the tagline "Garden of Knowledge and Virtue". Below the main content, there are "Quick Links" for "Research Library", "MyIIUM", "E-learning", "Webmail", and "Job Opportunities". A language selector shows "English" and "العربية". The Windows taskbar at the bottom shows the Start button and several open applications: "CENTRES FOR EXCE...", "Reports Background...", "offcampus (Read-...", "International Islamic...", and "Presentation1". The system clock shows "1:09 PM".

2. Go to **Connections** and Click **LAN Settings**

3. Click **Use Automatic Configuration** Script and Type in the address (<http://210.48.222.80/proxy.pac>) then click **OK**. Restart your desktop before access IIUM Library Database
